

GARDEN DESIGNS BY MARLENE DEEL

Dear California Legislators,

As a California small business, I rely on digital advertising and marketing to build our brand, find new customers, and remind previous customers that we're always here for them. Today, digital advertising is the most efficient, cost-effective way to reach people interested in what we offer. It is a necessity for small businesses.

For these reasons, I'm strongly opposed to SB 1327, which would impose an enormous tax on digital advertising. If advertising costs increase, small businesses will be forced to advertise less, pay employees less, and invest less in our business. All these choices are bad and will hurt our families, employees, and our opportunity to succeed and help grow California's economy.

I urge you to support small businesses by opposing SB 1327. During inflationary times, our government should help small businesses by reducing our costs, not raising our taxes.

Thank you for your time and consideration.

Sincerely,

Fernando Cisneros
